Environmental Policy Statement

Freeport Records aims to protect the environment by ensuring the sustainable use and disposal of scarce resources.

This environmental policy provides a framework based upon the values of sustainable development within which we can place our won activities and operations. The policy also translates the core aims and beliefs of the organisation into objectives and guidelines for action, which will inform and have an impact on all areas of our work.

We will

- Aim to minimise the use of all materials, supplies and energies.
- Minimise waste production in all areas of the organisation and aim for waste-free processes
- Purchase, where feasible, sustainable products for use in the organisations' operations, ie recycled, FSC or low environmental impact products and energy from renewable sources.
- Assess the environmental impact of all its operations on a continual basis

Approved by Board:

Harry Leckstein
Managing Director
Freeport Records Ltd
